51750-c5000 Auto Suspension Parts Wheel Hub Bearing For Hyundai Sorento Santa Fe

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 51750-c5000
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Material: Steel
- Country Of Origin: China
- Warranty: 12 Months
- Type: Wheel Hub Bearing
- Size: Standard
- Name: Automobile Spare Parts

Product Description

Product Description:

A hub assembly or wheel bearing assembly is an essential part of a car's suspension system, also known as a wheel hub bearing. It plays a vital role in ensuring the wheel's proper rotation while bearing the weight of the vehicle and is situated at each wheel.
The wheel assembly contains multiple components such as bearings, seals, and sensors, which make it easier for the wheel to rotate. The bearing system is lubricated to ensure smoothness and to minimize the friction between the moving parts. A faulty wheel hub bearing can lead to vibration, uneven tire wear, and steering issues.
It is necessary to regularly check the wheel hub bearing assembly to ensure the suspension system functions accurately. This will also help avoid any potential accidents caused by damaged hub bearings. In case of any issues, immediate replacement or repair of the wheel hub bearing assembly by a qualified mechanic is highly recommended.

Features:

Smooth and Quiet Operation
Our wheel hub bearing utilizes advanced bearing technology and precision engineering to provide smooth and quiet rotation of the wheel. It reduces friction and minimizes noise, allowing for a comfortable and enjoyable driving experience.
Second Paragraph:
High-Quality Materials
We use premium-grade materials, such as high-quality steel and durable seals, in the construction of our wheel hub bearing. These materials are designed to withstand heavy loads, extreme temperatures, and harsh driving conditions, ensuring long-lasting performance and reliability.
Third Paragraph:
Integrated Design
Our wheel hub bearing features an integrated design that combines the wheel bearing, hub, and ABS (Anti-lock Braking System) sensor into a single unit. This integration simplifies installation and ensures proper alignment and functionality of the ABS system, contributing to safe and efficient braking performance.
Fourth Paragraph:
Enhanced Safety
Our wheel hub bearing plays a critical role in the safety of your vehicle. It supports the weight of the vehicle and provides a secure attachment point for the wheel. By maintaining proper alignment and smooth rotation, it ensures optimal handling, stability, and control, reducing the risk of accidents.
Fifth Paragraph:
Rigorous Testing and Certification
Our wheel hub bearing undergoes rigorous testing and quality control processes to ensure its performance, reliability, and durability. It meets or exceeds industry standards and is backed by a warranty, giving you confidence and peace of mind in your purchase.

Technical Parameters:

Product Name:	Automobile Spare Parts
Type:	Wheel Hub Bearing
Material:	Steel
Size:	Standard
Country of Origin:	China
Warranty:	12 Months

Support and Services:

Our technical support and services for Automobile Spare Parts include:
Expert advice on product selection and compatibility with your vehicle
Assistance with installation, maintenance, and repair of our products
Access to product manuals and guides
Warranty support and claims processing
Product training and education for technicians and mechanics
Quick and efficient order processing and shipping

FAQ:

1. Who are we?
We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .
2. How can we guarantee quality?
Always a pre-production sample before mass production;
Always final inspection before shipment.
3. Why should you buy from us from other suppliers?
We have experience in spare parts for more than 10+years
A large of stock
Professional export company
Accept small order
We can design anything well according to customers' requirment
