

Automobile Oil Control Valves Custom part 2435526710 24355-26710

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 24355-26710
- Minimum Order Quantity: 10 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Warranty: 24 Months
- Material: Metal + Plastic
- Engine Capacity: 2.0/2.4
- Valve Type: Oil Control Valves
- Packaging: According To Customers' Requirements
- Temperature Range: -20°C To +120°C
- Application: Automobile
- Highlight: **Automobile Oil Control Valves,
Oil Control Valves Custom, 2435526710**

Product Description

2435526710 24355-26710 VVT Oil Control Valve for 2011-2014 Hyundai Santa Fe Tucson Optima

Product Description:

Oil Control Valve in Vehicle Motors

The Oil Control Valve (OCV) is a vital part of the engine in a vehicle. It serves to regulate the flow of oil to its various components. This valve is mainly operated by the engine management system, which ensures that the accurate pressure and timing of the oil are present for the optimal performance of the engine.

The OCV has a massive impact on the performance, maintenance, and longevity of the engine. When the oil pressure or timing is not in line, the engine performance could suffer. A low oil pressure or improper timing of the oil flow would put too much strain on the engine, leading to potential damage, misfiring, and untimely wear and tear.

In conclusion, the Oil Control Valve is an important factor for any vehicle engine, helping to make sure that the performance levels remain top-notch. Any problems in the regulation or timing of the flow of engine oil should be corrected immediately, otherwise it could result in significant damage and loss of performance.

Features:

Our Oil Control Valve (OCV) is designed to provide precise control of oil flow to all the essential engine components. This ensures a proper and consistently efficient level of lubrication and performance of those components.

Our OCV also supports the maintenance of consistent and optimal oil pressure in engines with variable oil pressure systems. This is critical for the lubrication, cooling, and protection of engine parts.

The OCV is built to last through the toughest of engine conditions with its durable and corrosion-resistant housing and high-quality internal parts for reliable and long-lasting performance.

The OCV is a direct fit replacement for the original equipment of your vehicle and perfectly matches the specifications and mounting points of your vehicle's make, model, and engine. This means you can install it easily without any hassle.

Support and Services:

We provide technical support and services for our Oil Control Valves. Our services include:

24-hour customer support

Free product installation and setup

Regular maintenance and repairs

Replacement parts sourcing

Customization of products for specific needs

On-site technical assistance

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
