

Industrial Oil Control Valves Regulated 243553CAB1 24355-3CAB1

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 24355-3CAB1
- Minimum Order Quantity: 10 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Engine Capacity: 2.0/2.4
- Packaging: According To Customers' Requirements
- Warranty: 24 Months
- Material: Metal + Plastic
- Application: For Hyundai
- Valve Type: Oil Control Valves
- Temperature Range: -20°C To +120°C
- Highlight: **Industrial Oil Control Valves,
Oil Control Valves Regulated, 243553CAB1**

Product Description

243553CAB1 24355-3CAB1 VVT Oil Control Valve for 2011-2014 Hyundai Santa Fe Tucson Optima

Product Description:

The **Oil Control Valve (OCV)** is an important component of a vehicle's engine, which helps to regulate the flow of oil to various engine components. It is regulated by the engine management system, and is essential for optimal engine efficiency. The OCV is responsible for the correct oil pressure, timing and stability. It is constantly monitored by the engine management system, and adjustments are made accordingly to guarantee maximum performance. If the OCV is not functioning properly, it can lead to an array of performance problems, including reduced fuel economy, increased emissions, and potentially expensive engine damage. To prevent such issues, it is recommended to have the OCV checked regularly to ensure smooth running of the engine.

Features:

Oil Flow Regulation: Our oil control valve offers precision control of oil flow to different engine components. This helps ensure that the engine elements get the necessary lubrication and function correctly.

Oil Pressure Regulation: Our OCV helps keep oil pressure at the optimal level in engines using variable oil pressure systems. Proper pressure is essential for lubrication and cooling, and our valve allows for consistent and appropriate levels.

Durable Construction: Our OCV is built to take on the intense pressures of engine use. The housing is tough and the internal components are of the highest quality, providing resistance to corrosion and long-term performance.

Compatibility and Easy Installation: Our OCV is designed as a replacement piece for your vehicle's original equipment and is designed to work perfectly with your car's make, model, and engine type. The installation is fast and easy.

Applications:

NABO Oil Control Valves are widely used in automotive, industrial, and agricultural applications, and have proven to be reliable and efficient. They are perfect for controlling oil pressure and regulating oil flow, ensuring optimal performance and safety for your system. We strive to provide the best quality products with top-notch customer service. Our Oil Control Valves are designed to meet the highest industry standards, and are guaranteed to offer superior performance and reliability.

Support and Services:

Oil Control Valves Technical Support and Service

We offer a full range of technical support and service for Oil Control Valves, including:

24/7 telephone and email support

On-site installation and maintenance services

Online troubleshooting and repair guides

Spare parts and accessories supply

Regular maintenance and calibration

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
