

## Oil Flow Regulation 243552B600 24355-2B600 VVT Oil Control Valve

Our Product Introduction

For more products please visit us on [automobile-sparepart.com](http://automobile-sparepart.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 24355-2B600
- Minimum Order Quantity: 10 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

### Product Specification

- Packaging: According To Customers' Requirements
- Application: For Hyundai
- Engine Capacity: 2.0/2.4
- Warranty: 24 Months
- Material: Metal + Plastic
- Valve Type: Oil Control Valves
- Temperature Range: -20°C To +120°C
- Highlight: 243552B600, 24355-2B600

## Product Description

243552B600 24355-2B600 VVT Oil Control Valve for 2011-2014 Hyundai Santa Fe Tucson Optima

### Product Description:

The Oil Control Valve (OCV) is an indispensable component of any vehicle's engine. By regulating the flow of oil to various engine parts, it ensures the proper operation of the engine. The engine management system controls the OCV, playing a vital role in keeping oil pressure and timing appropriate for optimal engine performance.

Without OCV, engine components such as cylinders and pistons malfunction or, worse, break down over time from overusing oil, due to a lack of proper control. This leads to inefficient fuel consumption, increased emissions, and reduced engine lifespan. Furthermore, improper oil pressure and timing can damage the engine by causing metal surfaces to rub and wear against each other.

It is therefore essential for a vehicle's engine to possess an Oil Control Valve in order to ensure smooth and efficient operation. As such, the OCV is one of the most important pieces of equipment for a successful engine management system.

### Features:

**Oil Flow Regulation:** Our oil control valve ensures precise flow of oil to different engine parts. With accurate oil flow adjustment, critical engine components get optimal lubrication and performance.

**Oil Pressure Regulation:** Our oil control valve (OCV) maintains the oil pressure in the engines equipped with variable oil pressure systems. The OCV regulates the oil flow to guarantee consistent and optimal oil pressure for lubrication, cooling and engine part protection.

**Durable Construction:** Our OCV can withstand severe engine operation. It has a robust housing and reliable internal components for enhanced durability, corrosion resistance and prolonged performance.

**Compatibility and Easy Installation:** Our OCV is specifically manufactured as a direct fit for your vehicle's original equipment. It is crafted to meet the make, model, and engine specifications of your vehicle with exact mounting points, thereby allowing for a smooth and trouble-free installation.

### Support and Services:

Oil Control Valves Technical Support and Service

We provide technical support and service for our Oil Control Valves. Our team of experts is available to help you understand and use our products. We have a variety of resources available, such as:

**Detailed product information and specifications**

**Installation instructions and best practices**

**Troubleshooting information and support**

**FAQs and product maintenance information**

**After-sale service and support**

For any questions or concerns about our Oil Control Valves, please contact our technical support team. We are available 24/7 and are always happy to help.

### FAQ:

#### 1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

#### 2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

#### 3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+ years

**A large of stock**

**Professional export company**

**Accept small order**

**We can design anything well according to customers' requirement**

## PRODUCT SPECIFICATIONS

## MAIN PRODUCT

### BRAKE SYSTEM

Brake Pad
