

Metal + Plastic Oil Control Valves 2435523800 Oil Pressure Regulation

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 24355-23800
- Minimum Order Quantity: 10 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Packaging: According To Customers' Requirements
- Valve Type: Oil Control Valves
- Warranty: 24 Months
- Temperature Range: -20°C To +120°C
- Engine Capacity: 2.0/2.4
- Application: For Hyundai
- Material: Metal + Plastic
- Highlight: **Metal Oil Control Valves,**
Plastic Oil Control Valves, 2435523800

Product Description

2435523800 24355-23800 VVT Oil Control Valve for 2011-2014 Hyundai Santa Fe Tucson Optima

Product Description:

The Oil Control Valve (OCV) is an extremely crucial component of a vehicle's engine. It plays an important role in making sure that the flow of oil to various engine components is regulated properly. This is usually controlled by the engine management system, which plays a fundamental role in ensuring the proper oil pressure and timing for the highest engine performance.

The OCV works by utilizing an electromagnetic actuator to control the flow of oil, which is then regulated by the engine management system. This system is designed to be able to monitor the amount of oil flowing to each engine component, as well as the timing and pressure of the oil. By controlling these variables, the engine management system can help optimize the performance of the vehicle's engine.

The Oil Control Valve is an essential component to any vehicle, as it helps to keep the engine running smoothly and efficiently. It is highly important to make sure that it is functioning properly, as the consequences of a faulty OCV can have a significant impact on the performance of a vehicle's engine.

Features:

Oil Flow Regulation

Our oil control valve (OCV) can accurately adjust the flow of oil to various engine components, ensuring proper lubrication and excellent performance from critical engine parts.

Oil Pressure Regulation

The OCV also ensures consistent and optimal oil pressure in engines with variable oil pressure systems. It allows the regulated flow of oil to maintain the ideal pressure for proper lubrication, cooling, and protection of engine parts.

Durable Construction

This OCV is exceptionally-crafted for engine operation. It has a well-made structure and high-quality internal parts that are corrosion-resistant and guarantee long-lasting performance.

Compatibility and Easy Installation

Our OCV is made to exactly match the design and mounting points of your vehicle's original equipment. It offers perfect compatibility for your vehicle's make, model, and engine, and will fit exactly and require minimal effort for installation.

Support and Services:

Oil Control Valves Technical Support and Service

We offer technical support and service for our Oil Control Valves products. Our team of experts are available 24/7 to provide you with the highest quality support and service. We provide troubleshooting advice, installation guidance, and repair recommendations. Whether you need help with installation, operation, maintenance, or a repair, our team is here to help you every step of the way.

Our support team is well-trained and knowledgeable in the latest technologies and industry standards. We can provide you with the answers you need to get the most out of your Oil Control Valves product. We have a team of engineers and technicians who are always on hand to answer any questions you may have.

We understand that having a reliable and efficient product is essential for your business. That's why our technical support and service team is available to answer any questions you may have. We strive to provide the best possible service and support so you can get the most out of your Oil Control Valves product.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
