

# Factory Automobile Engine Fuel Injector Nozzle 35310-3C000 353103C000

### **Basic Information**

Place of Origin: CHINA
Brand Name: NABO
Certification: TS16949
Model Number: 35310-3C000
Minimum Order 10 PCS

Quantity:

• Price: \$2.57 ~ \$3.58

• Packaging Details: poly bag or air bubble bag, any boxes with

customers' label, Corrugated box, Standard

tray

Delivery Time: 3~30 work days
 Payment Terms: D/P, L/C, T/T

• Supply Ability: 1000000 pcs per month

# **Product Specification**

Warranty: 24 Months
Application: Automobile
Quality: 100% Tested

Package: Any Color Box As Customers' Requirement

• Product Name: Fuel Injector Nozzle

• Size: Standard

• Highlight: Engine Fuel Injector Nozzle,

Automobile Fuel Injector Nozzle, 35310-3C000

#### **Product Description**

35310-3C000 Fuel Injector Nozzle 353103C000

## **Product Description:**

The **injector nozzle** is an important part of the fuel injection system inside an internal combustion engine. Its main purpose is to put pressurized fuel into the chamber in an exact and orderly manner. This nozzle is a key factor in the engine's operation, fuel economy, and emissions control.

#### Features:

#### **Superior Fuel Atomization**

Our injector nozzle ensures efficient fuel atomization, breaking down the fuel into a fine mist or spray. This process promotes thorough mixing with the incoming air, resulting in improved combustion efficiency, power output, and fuel economy.

#### **Precise Fuel Flow Control**

Our injector nozzle provides precise control over the fuel flow rate, delivering the correct amount of fuel based on the engine's operating conditions. This ensures the ideal air-fuel ratio for optimal combustion, maximizing engine performance and minimizing emissions.

#### **Optimized Spray Pattern and Angle**

The design of our injector nozzle ensures an optimized spray pattern and angle, facilitating proper fuel distribution and mixing within the combustion chamber. This enhances combustion stability, reduces the risk of fuel impingement on cylinder walls, and promotes efficient fuel utilization.

#### **Durable and Resilient Construction**

Our injector nozzle is built to withstand the demanding conditions of the engine environment. It is constructed from high-quality materials, such as stainless steel or composite materials, providing excellent durability, resistance to wear, corrosion, and clogging.

#### **Precise Engineering and Calibration**

Our injector nozzle undergoes precise engin

#### **Support and Services:**

We provide technical support and services for Fuel Injector Nozzle. Our services include but are not limited to:

Troubleshooting and diagnostics

Component installation

Repair and replacement of faulty parts

Maintenance and upkeep

We are committed to providing our customers with timely and accurate support and services for all of their Fuel Injector Nozzle needs.

#### FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

A large of stock

Professional export company
