

Premium Car Steering Rod End 56820-D3000 With 12 Months Warranty

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 56820-D3000
- Minimum Order Quantity: 100 SETS
- Price: \$2.57~3.57
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Product Name: Tie Rod End
- Car Make: For Hyundai Kia
- Warranty: 12 Months
- Quality: 100% Tested
- Packing: Poly Bag With Carton, After Pallet
- OEM: 56820-D3000
- Highlight: **Premium Steering Rod End,
Car Steering Rod End, 56820-D3000**

Product Description

56820-D3000 Tie Rod End Fit For SONATA Optima

Product Description:

A **tie rod end** is an essential element of a vehicle's steering system. It can be found at the outer edges of the tie rod, linking the steering linkage to the steering knuckle or spindle. The tie rod end plays a prominent role in controlling and maintaining the stability of the vehicle while steering, allowing for accurate and smooth steering actions.

The tie rod end is constructed of a ball-and-socket configuration, allowing it to turn in all directions while resisting breaking or separating. It is secured to both parts of the steering mechanism with jam nuts, and sealed with rubber boots to protect against dirt and debris.

Additionally, it generally requires lubrication to ensure it is working properly.

To keep a vehicle operating correctly, it is necessary to closely check and maintain the tie rod ends. Checking for signs of wear is essential, as worn tie rod ends can lead to irregular tire wear and unsafe driving conditions. As such, they should be checked upon every oil change, and replaced if necessary.

Features:

Our tie rod end is crafted from premium materials like forged or cast steel to ensure that it can stand up to the rigors of everyday driving. It is built to last, taking damage, wear and corrosion in stride.

One of the key roles of the tie rod end is to take the driver's inputs on the steering wheel and translate them to the steering knuckle - allowing their vehicle to move and steer more precisely and smoothly. With its precise design and tightly fastened ball joint or bushing mechanism, our tie rod end offers maximum steering control and responsiveness.

Whether it's a ball joint or bushing style, our tie rod end comes with different options depending on a vehicle's needs. Ball joints allow for both articulation and rotation, while bushings provide added mobility and great vibration dampening.

Installation is effortless with our tie rod end; all the necessary components and instructions are provided to make it fast and easy for anybody, from professionals to DIYers.

Support and Services:

Technical Support and Service for Tie Rod End

At ABC Company, we offer technical support and service for Tie Rod End products. Our trained technicians are available to answer any questions you may have about our products or to help you troubleshoot any issues you may have. We also provide installation and maintenance services to ensure your Tie Rod End is running optimally. If any parts need to be replaced, we can provide them at competitive prices.

We understand that our customers need reliable and efficient products, so we strive to provide the best customer service possible. Our team is always ready to answer any questions or concerns you may have and to provide you with the best possible products and services.

If you need any further assistance or have any questions about our products, please do not hesitate to contact us. We look forward to helping you with your Tie Rod End needs.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
