# Wholesale OEM Car Tie Rod Forged Steel 56825-F2000 100% Tested Quality

#### **Basic Information**

Place of Origin: CHINA
Brand Name: NABO
Certification: TS16949
Model Number: 56825-F2000
Minimum Order 100 SETS

Quantity:

• Price: \$2.57~3.57

• Packaging Details: poly bag or air bubble bag, any boxes with

customers' label, Corrugated box, Standard

tray

Delivery Time: 3~30 work days
 Payment Terms: D/P, L/C, T/T

• Supply Ability: 50000 pcs per month

# **Product Specification**

Product Name: Tie Rod End
Car Make: For Hyundai Kia
Warranty: 12 Months
Quality: 100% Tested

Packing: Poly Bag With Carton, After Pallet

• OEM: 56825-F2000

Highlight: Car Tie Rod Forged, Car Tie Rod Steel,

56825-F2000

### **Product Description**

56825-F2000 Tie Rod End Fit For SONATA Optima

#### **Product Description:**

The tie rod end is an important component of a vehicle's steering system. It is situated on either side of the tie rod, connecting the steering linkage to the steering knuckle or spindle. It is a vital component, as it allows for the smooth and precise control over the steering.

It's important to maintain the tie rod end as it plays a significant role in keeping the car driving safely and steadily. When it is worn, it can lead to difficult steering, unsuitable alignment angles, and can reduce the vehicle's control - increasing the risk of an accident.

#### Features:

Our **tie rod end** is constructed from high-quality materials like forged or cast steel to ensure a reliable performance and extended service life. It is built to withstand wear, impact, and corrosion.

This crucial component connects the steering linkage to the steering knuckle and transmits the driver's input into smooth and accurate steering movements. The ball joint or bushing mechanism provides optimal control and responsiveness.

We offer both ball joint and bushing-style tie rod ends to fit the vehicle's specifications. The former provides articulation and rotation while the latter offers flexibility and vibration dampening.

Our tie rod end is easy to install, including all necessary hardware and instructions. It is suitable for both professional mechanics and DIY enthusiasts.

#### **Support and Services:**

Technical support and service for Tie Rod End is provided as follows:

Provide installation and maintenance instructions.

Provide technical advice and troubleshooting.

Provide replacement parts.

Answer customer inquiries.

Carry out product maintenance and repair.

#### FAQ:

#### 1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

#### 2. How can we guarantee quality?

Always a pre-production sample before mass production;
