Automobile Tie Rod End Replacement 56820-2H000 Wear Resistance

Basic Information

- Place of Origin:
- Brand Name:
- Certification:
- Model Number: 56820-2H000
 Minimum Order 100 SETS
- Quantity: • Price: \$2.57~3.57
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
 Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

Product Name:	Tie Rod End
• Car Make:	For Hyundai Kia
• Warranty:	12 Months
Quality:	100% Tested
Packing:	Poly Bag With Carton, After Pallet
Application:	Automobile
Highlight:	Automobile Tie Rod End, Tie Rod End Replacement, 56820-2H000

Product Description

56820-2H000 Tie Rod End Fit For SONATA Optima

Product Description:

The **tie rod end** is an important part of a vehicle's steering system. This component is situated at the outer extremities of the tie rod and is responsible for connecting the steering linkage to the steering knuckle or spindle. Its presence helps to attain smooth and accurate steering performance by allowing for greater steering control and stability.

Features:

We use only high-quality materials such as forged or cast steel to construct our tie rod end, ensuring maximum durability and wear resistance. This product is designed to withstand the demands of everyday driving while providing reliable protection against corrosion. Our tie rod end is essential for maintaining optimal steering performance. It connects the steering linkage to the steering knuckle, translating the driver's input into smooth and precise steering movements. Its accurate design and tight ball joint or bushing mechanism ensures improved steering control and responsiveness.

Our tie rod end is offered in two designs – ball joint or bushing – to meet the specifications of different vehicle models. Ball joint tie rod ends allow for articulation and rotational movement, while bushing-style tie rod ends offer flexibility and vibration dampening. As a bonus, our tie rod end is designed for simple and easy installation. It comes with all the necessary hardware and instructions for installation, making it convenient for both professional mechanics and DIY enthusiasts.

Support and Services:

Technical support and service for Tie Rod End covers the following: Repair and replacement of defective parts Assistance with installation Troubleshooting during use Product maintenance and tuning

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers? We have experience in spare parts for more than 10+years
