

Customized Radiator Water Hose Pipe 25460-3C550 For Hyundai Santa Fe 2015

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 25460-3C550
- Minimum Order Quantity: 10 PCS
- Price: \$1.72 ~ \$2.73
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Name: Radiator Water Pipe
- OEM: 25460-3C550
- Size: Customized
- Material: Copper
- Pressure Rating: 1.6MPa
- Application: Automotive
- Highlight: **Customized Radiator Water Hose, Radiator Water Hose Pipe, 25460-3C550**

Product Description

25460-3C550 High Quality Water Coolant Hose Water Pipe for Hyundai Santa Fe 2015 25460 3C550

Product Description:

Always trust the experts at ABC Inc to provide you with essential products that keep your car cooled under everyday driving conditions. Introducing our **High-Quality Water Coolant Hose Water Pipe** - a paramount component that is designed to transport coolant fluid through your vehicle's cooling system.

We have engineered this vital water coolant hose water pipe with maximum precision and durability, so you can be sure that your car has reliable cooling performance.

Features:

Our water coolant hose water pipe is crafted from high-quality materials such as reinforced rubber or silicone, which are resistant to heat, pressure, and coolant chemicals. This construction ensures strength, flexibility, and long-lasting performance in demanding operating conditions.

The water coolant hose water pipe is responsible for circulating coolant fluid between the engine, radiator, heater core, and other cooling system components. It facilitates the transfer of heat away from the engine, thus ensuring proper engine temperature regulation and preventing overheating.

Our water coolant hose water pipe is designed to withstand high pressures and temperature fluctuations, thus minimizing the risk of leaks or bursts. Its reinforced layers and sturdy connectors provide a secure and reliable connection, thus enhancing the overall integrity of the cooling system.

The water coolant hose water pipe is engineered to withstand extreme temperature variations and exposure to coolant chemicals, resisting deterioration, swelling, and cracking. This assures consistent coolant flow and prevents coolant contamination.

Our water coolant hose water pipe is designed for straightforward installation, making it suitable for both professional mechanics and DIY enthusiasts. It is a direct fit replacement for your vehicle's original water pipe, so compatibility and a hassle-free installation process are guaranteed.

Our water coolant hose water pipe undergoes rigorous testing and quality control measures to meet or exceed industry standards. It is manufactured by trusted suppliers who prioritize quality and performance, giving you peace of mind in the quality and reliability of the product.

Support and Services:

Radiator Water Pipe offers technical support and services to our customers. We are dedicated to providing the best possible experience for our customers. Our technical support team is available 24/7 to answer any questions you may have. We also offer online tutorials and resources to help you get the most out of your product. Additionally, if you encounter any issues with your Radiator Water Pipe, we offer a one-year warranty and will replace your product if necessary.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
