

## Industrial Car Engine Thermostat Replacement 25500-23010 For Hyundai Accent 1.6

Our Product Introduction

For more products please visit us on [automobile-sparepart.com](http://automobile-sparepart.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 25500-23010
- Minimum Order Quantity: 10 PCS
- Price: \$1.85 ~ \$2.86
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

### Product Specification

- Product Name: Industrial Car Engine Thermostat
- Quality: 100% Tested
- Size: Standard
- Car Make: Hyundai Accent
- Warranty: 24 Months
- Package: Any Color Box As Customers' Requirement
- Engine: 1.6 GDI 1.6 T-GDI 1.6 T-GDi All-wheel Drive
- Highlight: Industrial Car Engine Thermostat, Car Engine Thermostat Replacement, 25500-23010

## Product Description

25500-23010 Engine High Quality Car Engine Parts Thermostat OEM 25500 23010 For Hyundai Accent 1.6

### Product Description:

The car engine thermostat is an integral component of the cooling system, providing a vital role in ensuring the engine remains at an optimal temperature range. Specifically designed for automotive purposes, the thermostat helps to regulate the engine's temperature index.

The thermostat can be viewed as a type of regulator, working by controlling the flow of fluid or coolant through the engine. When the temperature index is too high, the thermostat opens to help disperse the heat, and when it reaches its optimal temperature range, it closes in order to regulate and maintain that range.

Therefore, the car engine thermostat is a specialized device that works in concert with the cooling system in order to extend the engine's lifetime, improve its performance, and maintain it within a desirable and safe temperature range.

### Features:

Our thermostat is a reliable temperature regulating device, designed to maintain the engine within its optimal temperature range for efficient cooling system operation. It features a high-quality temperature-sensitive element that accurately detects small variations in engine temperature, providing precise control over the thermostat's opening and closing. This helps prevent overheating, and extends the life of engine components. It is constructed with a robust housing and high-quality internal components, ensuring durability, corrosion resistance, and longevity.

The thermostat is designed as a direct fit replacement for your original equipment, and is compatible with a wide range of makes and models. However, it is important to cross-check the specifications and temperature requirements specific to your vehicle to ensure proper compatibility and optimal performance.

### Support and Services:

Car Engine Thermostat Technical Support and Service

We provide comprehensive technical support and service for the Car Engine Thermostat. Our team of expert technicians and engineers are available to help you with any issues you may have.

We provide a range of services, including:

**Troubleshooting and diagnostics**

**Installation and setup**

**Maintenance and repairs**

**Software updates and upgrades**

**Parts replacement**

We also offer a free online resource center, with helpful tutorials, FAQs, and other resources to assist you with your Car Engine Thermostat.

### FAQ:

#### 1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

#### 2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

#### 3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+ years

**A large of stock**

**Professional export company**

**Accept small order**

**We can design anything well according to customers' requirement**
