

Customized Auto Strut Mount Absorb Vibrations 54610-2S100 For Hyundai

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54610-2S100
- Minimum Order Quantity: 10 PCS
- Price: USD3.57 ~ USD4.58
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Product Name: Auto Strut Mount
- Packing: Any Box According To Customers' Requirement
- Warranty: 24 Months
- Material: Rubber And Steel
- Car Make: For Hyundai
- Size: Customized
- Highlight: **Customized Auto Strut Mount,
Auto Strut Mount Absorb Vibrations,
54610-2S100**

Product Description

54610-2S100 Strut Mount for HYUNDAI GRANDEUR H-1 ix55 SANTA FE II KIA CARNIVAL III 54610 2S100

Product Description:

A **strut mount**, also known as a *suspension mount* or *shock mount*, is an important part of a vehicle's suspension system. It acts as an attaching point between the strut assembly and the vehicle's body or frame. Moreover, the strut mount plays a vital role in providing stability, support and reducing vibration in the suspension system.

Strut mounts come in various shapes and sizes, since different vehicles have different suspension systems. Generally, they consist of a bolt connected to a top plate with a rubber cushion in between. This rubber cushion works as a shock absorber by dampening the vibrations caused by compressions. All in all, the strut mount knows how to provide the important support and guidance for the vehicle.

Features:

Our strut mount provides structural support, vibration damping, load distribution, alignment maintenance, and durability for your vehicle's suspension system. As a robust connection point between the assembly and the body, it serves as a secure and stable attachment point. Its high-quality rubber or polyurethane bushings absorb vibrations, reducing noise generated by the suspension system. Furthermore, the mount distributes the load and forces evenly, preventing stress on any one point. This ensures balanced weight distribution and improved overall stability and performance. Moreover, the mount enables articulated movement, allowing the wheels to remain correctly aligned with the road surface and enhancing tire wear, comfort, and overall vehicle stability. Finally, the mount is made from high-quality materials and tested rigorously to ensure that it can withstand the demands of daily driving over an extended period.

Support and Services:

Auto Strut Mount provides technical support and service for its products. Technical support is available through online chat, phone, and email. Service is available in the form of warranty and repair services. Warranty services provide coverage against defects in materials and workmanship. Repair services are available for any product that fails or is damaged due to normal wear and tear.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
