Model 54610-2B500 Car Strut Mount Assembly Rubber And Steel Material

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54610-2B500
- Minimum Order Quantity: 10 PCS
- Price: USD3.57 ~ USD4.58
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Product Name: Auto Strut Mount
- Material: Rubber And Steel
- Car Make: For Hyundai
- Packing: Any Box According To Customers' Requirement
- Warranty: 24 Months
- Model: 54610-2B500
- Highlight: **Car Strut Mount Rubber,
Car Strut Mount Assembly, 54610-2B500**

Product Description

54610-2B500 Strut Mount for HYUNDAI GRANDEUR H-1 ix55 SANTA FE II KIA CARNIVAL III 54610 2B500

Product Description:

A **strut mount**, also known as a suspension mount or a **shock mount**, is an essential part of a vehicle's suspension system. It acts as an attachment point between the strut assembly and the vehicle's chassis or body. The strut mount plays an important role in providing support, stability, as well as dampening vibrations for the suspension system.

Additionally, the strut mount also helps to distribute the load across the suspension system more evenly, allowing it to carry heavier weights without the risk of revolution or instability. Additionally, the strut mount also helps to absorb road shocks and impacts more effectively, which helps to reduce strain on other important suspension components.

Features:

Our strut mount serves as a secure connection point between the strut assembly and the vehicle's chassis or body, enabling it to effectively absorb shocks, impacts, and vibrations from the road surface. This mount features high-quality rubber or polyurethane bushings, which absorb and minimize the transmission of vibrations to the vehicle's body – resulting in a quieter and more comfortable ride.

This mount is designed to distribute the load and forces exerted on the strut assembly evenly, helping to prevent excessive stress on any single point and ensuring balanced weight distribution. Furthermore, it facilitates proper suspension alignment by allowing controlled movement and articulation of the strut assembly, promoting even tire wear, improved handling, and enhanced vehicle stability. Our strut mount is constructed with high-quality materials and undergoes rigorous testing to ensure durability and long-lasting performance. This allows it to withstand the demanding conditions of daily driving, providing reliable support and stability for your suspension system over an extended period.

Support and Services:

Auto Strut Mount technical support and service includes:

Diagnosis and troubleshooting.

Access to online resources including setup, installation, and product manuals.

Free replacement for defective parts.

Unlimited technical support via phone, email, or chat.

Software and firmware updates.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
