

Wholesale Automotive Rubber Engine Mounting Noise Reduction 21910-2H150

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 21910-2H150
- Minimum Order Quantity: 20 PCS
- Price: \$6.00~ \$8.00
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 10000 pcs per months

Product Specification

- Product Name: Engine Mounting
- Material: Rubber
- Warranty: 12 Months
- Size: Standard
- Package: Poly Bag With Sticker
- Application: Automotive
- Highlight: **Automotive Rubber Engine Mounting, Rubber Engine Mounting Noise Reduction, 21910-2H150**

Product Description

21910-2H150 Engine Mounting For Hyundai Elantra 08-11 I30 Fd I30 21910 2H150

Product Description:

An engine mounting, which can also be referred to as an engine mount or motor mount, is a fundamental component of a vehicle's powertrain system. It is responsible for firmly attaching the engine of the vehicle to its chassis and furnishing support to the engine in order to appropriately reduce vibrations, as well as restricting noise from entering the passenger compartment easily. In addition, engine mounts perform an essential role in preserving engine stability, promoting ride comfort, and defending other components from excess vibration.

Features:

Superior Construction

Our engine mounting is made using superior materials like robust metal brackets and specially formulated rubber or hydraulic components. This construction ensures a high level of strength, durability, and long-lasting performance in various driving conditions.

Vibration Dampening

The engine mounting is designed to effectively absorb and dampen engine vibrations, thereby minimizing the transmission of vibrations to the vehicle's chassis and passenger compartment. This results in a far smoother and comfortable ride, reducing driver fatigue and improving overall driving experience.

Noise Reduction

Our engine mounting incorporates certain innovative design features and materials to effectively minimize engine noise and vibrations. This helps create a much quieter cabin environment to ensure a peaceful and enjoyable driving experience.

Engine Stability and Alignment

With our engine mounting, the engine is securely held in place and is maintained within the engine bay in proper alignment. This prevents excessive engine movement, ensuring stability and reducing potential damage to other engine components.

Easy Installation

Our engine mounting is designed with easy installation in mind, making it suitable for professional mechanics and do-it-yourselfers. It is a direct fit replacement for your vehicle's original mounting, guaranteeing compatibility and an easy installation process.

Quality Assurance

Our engine mounting is put through rigorous testing and quality control measures to meet or exceed industry standards. It is manufactured by reliable suppliers who put quality and performance as their priority, giving you a dependable and long-lasting product.

Support and Services:

Rubber engine Mounting Technical Support and Services

Our rubber engine mounting range offers a comprehensive selection of technical support and services to ensure that your product is performing to the highest standard.

Fluid compatibility testing.

Durability testing.

Vibration dampening analysis.

Material analysis.

Thermal cycling testing.

Load testing.

Replacement parts.

Installation and maintenance assistance.

Ongoing product support.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
