Automotive Fuel Injector Nozzle Replacement 35310-02500 3531002500

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 35310-02500
- Minimum Order Quantity: 10 PCS
- Price: \$2.57 ~ \$3.58
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000000 pcs per month

Product Specification

- Product Name: Fuel Injector Nozzle
- Car Make: Automotive
- Size: Standard
- Quality: 100% Tested
- Package: Any Color Box As Customers' Requirement
- Warranty: 24 Months
- Highlight: **Automotive Fuel Injector Nozzle,
Fuel Injector Nozzle Replacement, 35310-02500**

Product Description

35310-02500 Fuel Injector Nozzle Tested Quality 3531002500 For Hyundai Atos MX 1.0L L4

Product Description:

The **injector nozzle**, often referred to as a fuel injector nozzle, is an essential part of a fuel injection system for internal combustion engines. By efficiently delivering pressurized fuel into the combustion chamber, its role in the engine is irreplaceable. The injector nozzle is heavily relied upon for engine performance, fuel efficiency, and emissions control. In addition, its precise and controlled performance is key to achieving a reliable and optimal running engine.

Features:

Superior Fuel Atomization

Our injector nozzle ensures efficient fuel atomization, breaking down the fuel into a fine mist or spray. This process promotes thorough mixing with the incoming air, resulting in improved combustion efficiency, power output, and fuel economy.

Precise Fuel Flow Control

Our injector nozzle provides precise control over the fuel flow rate, delivering the correct amount of fuel based on the engine's operating conditions. This ensures the ideal air-fuel ratio for optimal combustion, maximizing engine performance and minimizing emissions.

Optimized Spray Pattern and Angle

The design of our injector nozzle ensures an optimized spray pattern and angle, facilitating proper fuel distribution and mixing within the combustion chamber. This enhances combustion stability, reduces the risk of fuel impingement on cylinder walls, and promotes efficient fuel utilization.

Durable and Resilient Construction

Our injector nozzle is built to withstand the demanding conditions of the engine environment. It is constructed from high-quality materials, such as stainless steel or composite materials, providing excellent durability, resistance to wear, corrosion, and clogging.

Precise Engineering and Calibration

Our injector nozzle undergoes precise engineering and calibration to meet the specific requirements of your engine. Flow rates, spray characteristics, and fuel atomization are meticulously calibrated for optimal performance, ensuring reliable fuel delivery and combustion efficiency.

Compatibility and Ease of Installation

Our injector nozzle is designed to be compatible with a wide range of vehicle makes and models. It is a direct fit replacement for your original injector nozzle, ensuring a hassle-free installation process and proper integration into your fuel injection system.

Support and Services:

Fuel Injector Nozzle Technical Support and Service

We provide full technical support and service for our fuel injector nozzle product. Our team of expert technicians is always available to answer any questions and provide assistance with installation and maintenance.

We offer a range of services to ensure your fuel injector nozzle works properly and efficiently. These services include:

Diagnostic services to identify any problems with your fuel injector nozzle

Repair and replacement services to resolve any existing issues

Maintenance services to help maintain optimal performance

Installation services to ensure your fuel injector nozzle is installed correctly

We also provide a warranty on our fuel injector nozzle. If you encounter any problems with your fuel injector nozzle, we will repair or replace it free of charge.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
