Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54410-3K000
- Minimum Order Quantity: 20 PCS
- Price: USD12.85 ~ USD14.88
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 5000 pcs per month

Product Specification

- Product Name: Suspension Control Arm
- Car Make: For Hyundai
- Warranty: 12 Months
- Size: Standard
- Package: Poly Bag With Cartons, After Wooden Pallets
- OEM: 54410-3K000 54420-3K000
- Highlight: 54410-3K000, 54420-3K000

Product Description

54410-3K000 54420-3K000 Suspension Control Arm For Hyundai Sonata Azera 2006 544103K000 544203K000

Product Description:

Control Arms: An Essential Part of Vehicle Suspension System

A control arm, commonly referred to as an A-arm or wishbone, is an integral part of a vehicle's suspension system. Its main purpose is to connect the various suspension components to the vehicle's chassis and regulate the motion of the wheels. Control arms are usually located in the front and rear of the suspension system. However, their shape and arrangement may be different from model to model.

Features:

Superior Construction: Our control arm is crafted from high-quality materials, such as forged or cast steel, aluminum, or composite materials, ensuring strength, durability, and resistance to wear and corrosion. It is built to withstand the demands of daily driving and various road conditions.

Suspension Control: The control arm plays a crucial role in linking the suspension components, such as the wheel hub assembly and steering knuckle, to the vehicle's chassis. It provides the necessary structural support and flexibility to control the motion of the wheels, maintaining proper alignment and enhancing handling and stability.

Precise Wheel Alignment: Our control arm helps maintain proper wheel alignment, ensuring even tire wear, optimal handling, and improved vehicle stability. It allows for controlled vertical movement of the wheels, providing enhanced traction and responsiveness during acceleration, braking, and cornering.

Easy Installation: Our control arm is designed for straightforward installation, making it suitable for both professional mechanics. It is a direct fit replacement for your vehicle's original control arm, ensuring compatibility and a hassle-free installation process.

Quality Assurance: Our control arm undergoes rigorous testing and quality control measures to meet or exceed industry standards. It is manufactured by trusted suppliers who prioritize quality and performance, providing you with a reliable and durable product.

Support and Services:

Technical support and service for Suspension Control Arm include:

Providing technical guidance and consultation.

Providing technical training.

Providing maintenance services.

Providing product replacement and repair services.

Providing product warranty service.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
