## Auto Suspension Control Arm Wear Resistance 54500-2S000 545002S000

Our Product Introduction

For more products please visit us on [automobile-sparepart.com](http://automobile-sparepart.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54500-2S000
- Minimum Order Quantity: 20 PCS
- Price: USD12.85 ~ USD14.88
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 5000 pcs per month

### Product Specification

- Product Name: Suspension Control Arm
- Car Make: For Hyundai
- Package: Poly Bag With Cartons, After Wooden Pallets
- Warranty: 12 Months
- Size: Standard
- Application: Automobile
- Highlight: **Auto Suspension Control Arm,  
Suspension Control Arm Wear Resistance,  
54500-2S000**

## Product Description

54500-2S000 Suspension Control Arm for Hyundai ix35 Kia Sportage 2010 545002S000

### Product Description:

A **Control Arm**, also known as an A-arm or wishbone, is an essential part of a vehicle's suspension system. It connects the suspension components to the chassis and helps keep the wheels in contact with the road. Control arms are usually located in both the front and rear of a vehicle, although their shape may differ.

The control arm works in conjunction with other suspension components, including the shock absorber, to provide the driver with a comfortable and safe ride. In addition, it helps reduce road vibration, tire wear, and harshness of steering, all of which can affect the driving experience. Therefore, it is important to replace the control arm regularly, as it will ensure your vehicle is running smoothly and safely.

### Features:

Our control arm is carefully crafted from high-quality materials, such as forged or cast steel, aluminum, or composite materials, ensuring superior strength, durability, and resistance to wear and corrosion. It is designed to stand up to the demands of everyday driving and various road conditions.

The control arm is a pivotal part in providing the necessary structural support for connecting the suspension components, such as the wheel hub assembly and steering knuckle, to the vehicle's chassis. This helps maintain proper wheel alignment, ensuring even tire wear, optimal handling, and improved vehicle stability. It allows for controlled vertical motion of the wheels, enhancing traction and responsiveness during acceleration, braking, and cornering.

Furthermore, our control arm offers easy installation, making it suitable for professional mechanics and DIY enthusiasts. It is designed as a direct fit replacement for your vehicle's original control arm, eliminating the need for modifications. We also take quality seriously and every control arm undergoes rigorous testing and quality control measures to meet or exceed industry standards. Our suppliers also ensure long-lasting performance and reliability, providing you with the best product.

### Support and Services:

Suspension Control Arm Technical Support and Service

We provide technical support and service for our Suspension Control Arm products. Our technical support team is available to answer any questions you may have about the installation, operation, and maintenance of the product.

We also provide a variety of resources to assist you in using the product, such as installation instructions and troubleshooting tips. Our team is always available to provide assistance when needed.

For any additional questions or concerns, please don't hesitate to contact us. We look forward to providing you with the best possible support and service for your Suspension Control Arm product.

### FAQ:

#### 1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

#### 2. How can we guarantee quality?

Always a pre-production sample before mass production;  
Always final inspection before shipment.

#### 3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
