

OEM 54530-C1100 Automobile Ball Joint Parts Suspension System

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54530-C1100
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Product Name: Ball Joint
- Warranty: 12 Months
- Material: Metal/Plastic/Rubber
- Size: Standard
- OEM: 54530-C1100
- Highlight: **OEM Automobile Ball Joint, Automobile Ball Joint Suspension, 54530-C1100**

Product Description

54530-C1100 Automobile Spare Parts Ball Joint For Hyundai Kia Tucson Sportage Sonata 54530 C1100

Product Description:

Ball joint is an essential part of the suspension system of a vehicle. It attaches the control arm and steering knuckle, giving the freedom of controlled motion of the front wheels. The ball joint is a sphere encased in steel.

Features:

Reliable Suspension Connection

Our ball joint serves as a secure point of connection between the suspension control arms and the steering knuckle. It provides controlled movement, helping the suspension absorb shocks and maintain wheel alignment for a comfortable ride.

Smooth Articulation

Our ball joint is designed with a spherical bearing and stud assembly, allowing for smooth articulation and rotational movement. This enables the suspension system to respond efficiently to road conditions, improving handling and overall stability.

Load Distribution

Our ball joint helps disperse the weight and forces exerted on the suspension system. It spreads the stress on individual components to provide balanced weight distribution and help decrease premature wear.

Enhanced Steering Responsiveness

By enabling smooth movement and articulation, our ball joint enhances steering responsiveness and performance. It allows the suspension and steering systems to work together smoothly, providing precise control and maneuverability.

Durability and Longevity

Our ball joint is constructed with robust materials. The components provide superior strength, durability, and rust resistance, allowing for long-lasting performance in various driving environments.

Support and Services:

We provide technical support and service for Automobile Spare Parts. Our services include:

24/7 customer service

Technical support via phone, email, and website

Online troubleshooting and repair guides

Replacement parts and accessories

Warranty protection and extended warranties

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
