Factory 646041 93440777 Oil Pump for Automobiles For Opel

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 646041 93440777
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

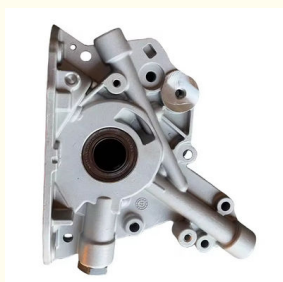

Product Specification

- Product Name: Oil Pump
- Warranty: 12 Months
- Size: Standard

Product Description

Product Description:

An oil pump plays a pivotal role in an internal combustion engine. This vital element is tasked with the circulation of engine oil, ensuring it reaches every corner of the engine. Its primary purpose is to provide seamless lubrication to all the moving components within the engine, helping to minimize wear and tear resulting from friction.

The pump guarantees that the engine's oil supply is both consistent and sufficient. This is crucial not only for lubrication but also for the cooling of the engine. By maintaining an optimal flow of oil, the oil pump helps in preserving the engine's integrity and extending its lifespan.

Features:

Oil Pump Essential Features

Efficient Oil Circulation

The design of our oil pump focuses on drawing oil with efficiency from the oil pan or sump to supply the engine's vital components. Its role is crucial in sustaining a uniform and uninterrupted oil flow, which greatly contributes to effective lubrication. This proactive circulation mitigates friction and wear on important engine parts, preserving their functionality.

Robust Construction Quality

Our commitment to high quality is evident in the use of superior materials for our oil pump, including stout cast iron or aluminum. These are resilient to the rigorous conditions of engine duty, like extreme heat and pressure, thus ensuring a product that performs reliably over time.

Precision for Reliability

The oil pump we manufacture showcases precision engineering with its fine internal components, either gears or rotors, crafted to exacting standards. The meticulous machining translates to a smooth and steady operational process, securing a consistent oil pressure and volume critical for peak engine function.

Superior Lubrication and Cooling

Central to our oil pump's purpose is its ability to provide ample lubrication and cooling to the moving parts within the engine. Adequate lubrication cuts down on friction and material wear, while proficient cooling facilitates heat dissipation. This dual-action guarantees the engine's durability and operational efficiency.

Comprehensive Quality Assurance

Every oil pump we produce is subjected to a stringent regime of tests and quality checks, affirming its capability, endurance, and trustworthiness. Adhering to industry norms and reinforced by a guarantee, our oil pump inspires confidence and satisfaction in your investment.

Applications:

Maintain your engine's peak performance and extend its lifespan with our superior oil pump. Our pump guarantees effective oil flow, improved lubrication, and dependable temperature regulation for uninterrupted vehicle function. Rely on the resilience and excellence of our oil pump to sustain your engine in prime condition.

Enjoy smooth oil distribution that fosters exceptional engine lubrication and consistent cooling. This proactive approach ensures your vehicle operates seamlessly. Confide in the robust construction and capability of our oil pump, designed to support your engine's needs continually.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

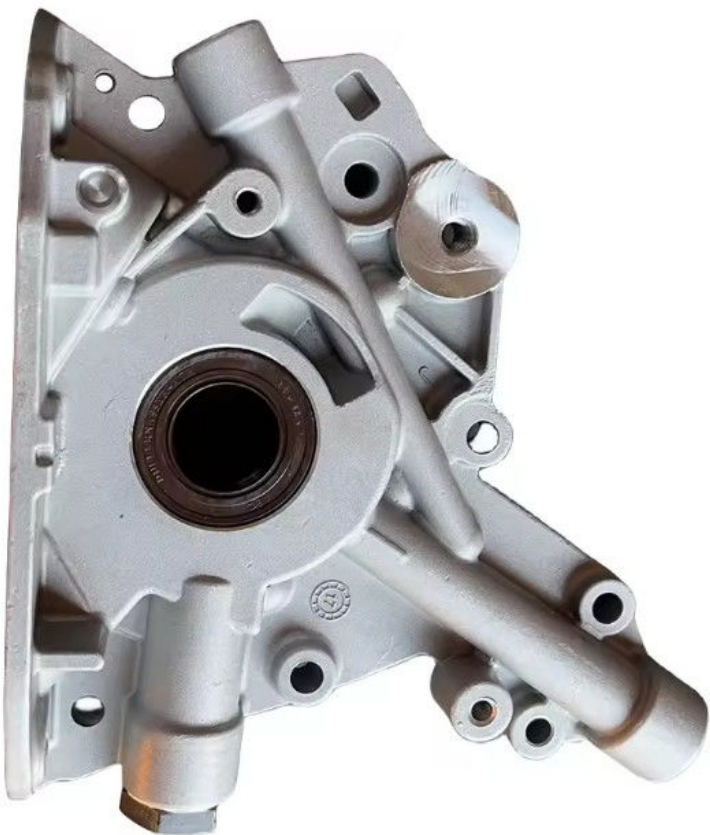

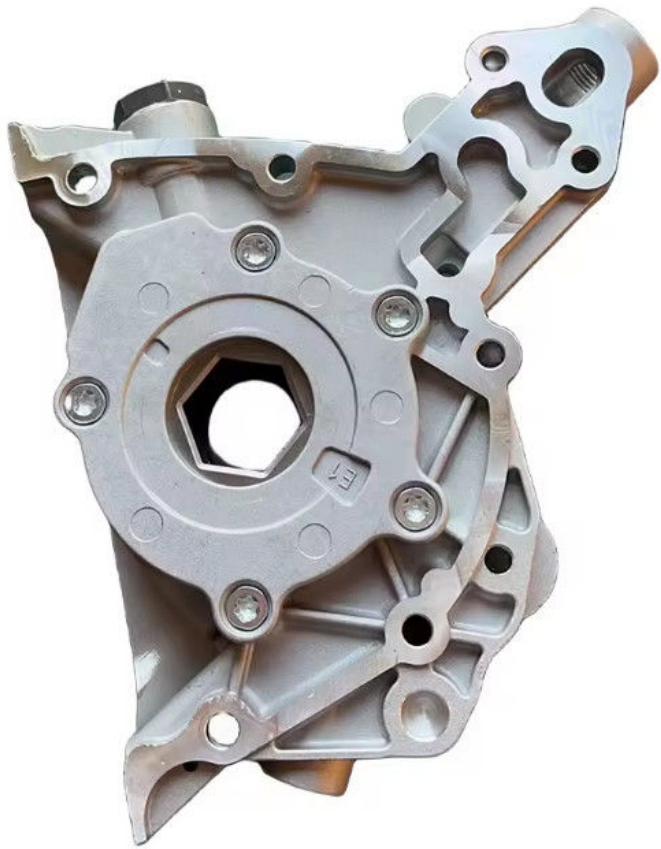

A large of stock

Professional export company

Accept small order

We can design anything well according to customers' requirment
