

2115015682 Cooling System radiator coolant hose for Mercedes Benz

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 2115015682
- Minimum Order Quantity: 10 PCS
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-30 days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Application: Radiator Water Pipe
- Temperature Rating: 150
- Pressure Rating: 1.6MPa
- Size: Standard
- Brand: OEM

Product Description

Product Description:

Introducing our top-of-the-line Water Coolant Hose Water Pipe, which is an essential part that efficiently carries coolant fluid through your car's cooling system. Made with precision engineering and lasting durability, our Water Coolant Hose Water Pipe guarantees peak performance and dependable cooling for your vehicle.

Our Water Coolant Hose Water Pipe is crafted to meet the highest quality in industry standards, and is designed to withstand extreme temperatures, pressure, and vibrations, ensuring its longevity and reliable operation. Constructed from premium materials, our Water Coolant Hose Water Pipe ensures resistance to corrosion, wear, and tear, providing long-lasting performance.

When it comes to keeping your vehicle running efficiently, our Water Coolant Hose Water Pipe is an indispensable component of your car's cooling system. Trust in our high-quality Water Coolant Hose Water Pipe to ensure optimal performance, durability, and reliable cooling for your vehicle.

Features:

Superior Construction:

Our water coolant hose water pipe is made from high-quality materials including reinforced rubber or silicone, which are resistant to heat, pressure, and coolant chemicals. This construction ensures that it is strong, flexible, and performs well in challenging operating conditions, maintaining its durability over time.

Efficient Coolant Flow:

The water coolant hose water pipe plays a vital role in circulating coolant fluid between the engine, radiator, heater core, and other cooling system components. This facilitates the transfer of heat away from the engine, ensuring proper engine temperature regulation and preventing overheating.

Leak and Burst Resistance:

Our water coolant hose water pipe is designed to withstand high pressures and temperature fluctuations, minimizing the risk of leaks or bursts. It features reinforced layers and sturdy connectors that provide a secure and reliable connection, enhancing the overall integrity of the cooling system.

Temperature and Chemical Resistance:

The water coolant hose water pipe is engineered to resist extreme temperature variations and exposure to coolant chemicals. It won't deteriorate, swell, or crack, ensuring consistent coolant flow and preventing coolant contamination.

Easy Installation:

Our water coolant hose water pipe is designed for straightforward installation, making it suitable for both professional mechanics and DIY enthusiasts. It is a direct fit replacement for your vehicle's original water pipe, ensuring compatibility and a hassle-free installation process.

Quality Assurance:

Our water coolant hose water pipe undergoes rigorous testing and quality control measures to meet or exceed industry standards. It is manufactured by trusted suppliers who prioritize quality and performance, providing you with a reliable and durable product.

Technical Parameters:

Size	Standard
Brand	OEM
Application	Radiator Water Pipe
Pressure Rating	1.6MPa
Temperature Rating	150

Support and Services:

Our Radiator Water Pipe product is built to last and designed to provide optimal performance for your vehicle's cooling system. We offer technical support and services to ensure that your Radiator Water Pipe is installed and operating correctly. Our team of experts can assist with troubleshooting, installation questions, and provide recommendations for maintenance and care of your Radiator Water Pipe. Customer satisfaction is our top priority, and we are committed to providing the highest level of support for all of our products.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
